

University Services, physician owned and operated since 1967, is a multi-specialty medical services company specializing in:

- Sleep Disorder Testing & Treatment
- MRO Toxicology Services for Employee Drug Testing
- Educational CME credits for physicians
- Clinical Trial Research Opportunities

University Services' Sleep Division provides diagnosis and treatment for those afflicted with any of the over 80 sleeping disorders. We have six sleep centers in the Philadelphia region and work with a dedicated team of professionals including ABSM boarded medical directors and BRPT certified technologists. Our centers are state-of-the-art facilities and AASM accredited.

We are seeking a **REGISTERED technologist** to join our team.

As a technologist with University Services you will be responsible for performing all varieties of sleep disorders testing in adult and pediatric population.

Training in scoring of sleep recordings is offered.

Shifts are either Sunday, Monday, & Tuesday or Wednesday, Thursday, & Friday from 7:30 pm through 7:30 am at a home location.

This position requires you to be a registered technologist. Only candidates that meet this requirement will be considered.

University Services offers competitive salary and benefits.

Qualified applicants should email their resume to
jobs@userservices.com.
